# Is the Recommendation Configuration screen school specific or district wide?

The Recommendation Configuration screen of Online Recommendations is school specific. Based on your Default School you can turn on/off Recommendations for your teachers, select Departments and/or Electives for Recommendations, enter a Sign Off message, set defaults, and select Recommendation Settings.

Keep in mind that the teacher, parent and student will be looking at the Recommendation screen for their next year school. For example, a current middle school 8th grader will be seeing the Recommendation screen based on the configuration set up for the high school.
