SCHOOL NUTRITION | STUDENT INFORMATION | FINANCIAL MANAGEMENT

APPLICATION ENHANCEMENTS

Application Improvements and Corrections:

1. *Add 2 new fields to Student Attendance Summary Object for counts of Remote Attendance and Remote Absents*

To accommodate for the new Remote Attendance fields we added two new set-up selection fields in **DOE ID Manager> Maintenance Doe> Doe Parameters.** Highlight only the codes that fit for each. *** This gets set at each school.

Once you set this and the DESE pulls the Student Attendance Summary at 12am you should see the Attendance for a student on the DESE SIF Portal showing DOE016 Days in Attendance, DOE017 Days in Membership, DOE054 Days Attended Remote and DOE055 Days Absent Remote

2. *Add 2 fields to Student School Enrollment Object for Civic Project and Instruction Mode*

DOE053: Civic Project

Use **Doe ID Manager> Mass Update** to set this field for all students.

Do this at each school by first setting your default school.
Select the grade levels at the top do not set anything else in the **Student Selection Filter**

Then Under Update Criteria scroll to the bottom for field Doe053

Update Criteria
AP Courses Names: [▼]
Civic Project Completer - DOE053: [00 - Student has not completed civics project ▼]
Report Parameters

Grades PK-07 set to 500 and Grades 08-12 and SP to 00. Then set this field by student in grade 08 as needed to 01.

Instruction Mode
Instructional Mode is now displayed and updated in the Student's Enrollment Record. This will need to be set each time a student moves from Hybrid to remote to In-Person Instructions. Update this as the students change from one mode to another.
**You do not need to make a new enrollment record when they move from one mode to another. If you want to do this you can by using a TRF record in-between each record to show the move date. So Enrolled first day of

school as Remote TRF on a date of change and Enrolled again on same date as TRF with the new Mode as needed.

Because all students need their Instructional Mode set we created a way to Mass Update Enrollment Records.

Biographical System> Mass Update Students>Mass Enroll Students to set this in the enrollment record

There is a new fields to allow you to update existing Enrollment records. Set this to yes

Update Building Code: yes ▼
Update Existing Enrollment Records: no ▼

==*** Do not set anything else above this selection on the screen.==

Additional fields show up to set.
Set the Where Current Enrollment Date Equals to be the correct date of the enrollment records you want to change.
==*** Check the date to make sure it is the right one first.==
Set the Instruction Mode to the first one you want to set

Update Existing Enrollment Records: yes ▼
Where Current Enrollment Date Equals: Sep ▼ 14 ▼ 2020 ▼
Update Existing Enrollment Date: No Update ▼
Update Instruction Mode: 02 - Hybrid ▼

Set the filters to find the students needed. Those who used the Shop Week to set the Cohorts or Teams can pick the correct Shop Week/Cluster to filter on.

==*** Do one cohort at a time the screen can only hold so many students in the search.==

Check off all needed students and submit the screen. Repeat this for each Shop Week/Cluster or group needed to be set.

*** Check for students who enrolled after this date and set them by hand on their individual Enrollment Records.

If you did not use Shop Week/Cluster then find the students on the list that need to be checked off for each mode and submit the screen.

3. Add 1 field to the Student Section Enrollment Object for Pathways Course

We have added a new field on the Student's **Scheduling System> Add Modify Schedule** screen to indicate a course section is being used by that student as a Pathway Course.

	Course ID	Course Name	Term	Schedule	Curr Lev	Room	Teacher	Credits	Status	Pathway
	3510-02	Pre Calculus CP2	1234	111-11-	2	B252	Stephen O'Leary	1.00		01 - Pathways Course
