iParent Registration Enhancements

In order to make the iParent registration page more user friendly the following enhancements have been made to the page.

a. The "Submit" and "Cancel" buttons have been removed from the "Internet User Information" area.

b. A new field has been added that will allow parents to select the number of student's they would like to register.

c. The order of the panels/section on iParent registration have been changed for easier data entry. The new order is as follows:

    i.   Personnel Information panel
    ii.   Address panel
    iii. Telephone Number panel
    iv.   Internet user information panel
    v.   Primary Student Information panel
    vi.   Additional Students > up to 10 Additional Students.

Please register all (and we mean ALL) students at the same time !!
Select the number of students you are registering.   3 ▾
