SCHOOL NUTRITION | STUDENT INFORMATION | FINANCIAL MANAGEMENT

APPLICATION ENHANCEMENTS

In some states the law requires that newly hired school employees who may have direct, unmonitored access to children complete fingerprint-based state and national background checks. The law will require current K-12 school employees have fingerprint-based state and national background checks prior to September 1st 2016.

To accommodate this laws the following functionality has been added to iPass. In iStaff Biographical > Add/Modify Staff > Profile > a new section has been added titled "Background Check Information". The "Background Check Information" section has the following fields available:

    A.   Fingerprinted > this is a Yes/No drop-down that allows the end user to signal if the staff member has been Fingerprinted.

    B.   Fingerprint Date > calendar picker that allows the end user to select the date the staff member was fingerprinted.

    C.   Report Received > this is a Yes/No drop-down that allows the end user to signal if they have received the background check report.

    D.   Report Date > calendar picker that allows the end user to select the date the report was received for the staff member.

    E.   The field "Date of Last CORI Check" has been moved from the "General Information" section to the new "Background Check Information section".

iPass > iStaff Biographical > Add/Modify Staff > Profile

New Reports

Staff Background Checks

Allows school districts to report and track staff members CORI Date, Fingerprint Date, and background report.

iPass > iStaff Biographical > Reports – iStaff Bio
