Release Notes

Version 7.020141230

December 30 , 2014

*Changes to iHealth Module*

---

---

## APPLICATION ENHANCEMENTS

1. **Navigation and Data Entry:** Some changes have been made to make data entry and navigation easier.
  - a. **Entering Dates:** In many places in the application the '/' will no longer be needed when entering dates. These changes are mainly in the Health module.
    - i. Enter 012514 to get 01/25/14.
    - ii. A period, comma, asterisk or dash can also be used to replace the '/' in dates.
    - iii. 'T' enters Today's date.
    - iv. +1 enters Tomorrow's date.
    - v. -1 enters Yesterdays date
  - b. **First Name:** The Student's first name has been added to the student search areas.
  - c. **Cursor Defaults to Student Last Name:** when searching on a student.
  
2. **Nurse Log:** Multiple changes have been made to the Nurse's Log. These include the addition of:
  - a. **Blood Pressure:** Record the Systolic and Diastolic readings
  - b. **Temperature**
  - c. **Pulse Rate**
  - d. **Pulse Oximetry**
  - e. **Respiration Rate**
  - f. **EPI-PEN administration**
  - g. **Blood Glucose Reading:** Up to six blood glucose readings can be recorded for a single day.
  - h. **Intentional, Unintentional and Unknown:** Injuries can now be flagged as to the type of injury for state reporting purposes.
  - i. **Injury & Illness:** For purposes of making reporting easier the Nurse visit can now be marked as Injury or Illness, but the default will be none selected.
  - j. **Guardian Phone Number:** The phone for the Guardian has been added to the header information on the Nurse Log page.
  - k. **Number of Visits:** A calculated field for the number of visits a student makes to the Nurse's Office has also been added to the individual log page for students and staff.

Time/Dose:	<input type="text"/>								

Copy Times Copy Doses

- 4. Health Exmpt Codes:** To correctly account for students on the Immunization totals report that have had a any disease, for instance Chicken Pox (Varicella), and will not need be getting a immunization, use **the Exempt Code of 99** for the code value with any description desired. The report will only be looking for the value of '99'.

Home>iHealth>Maintenance>Health Exempt Codes

**HEALTH EXEMPT CODES**

Delete Code	Description	Display Order
<input type="checkbox"/> 99	Already had disease	0
<input type="checkbox"/> Med	Excused due to illness	1
<input type="checkbox"/> Nat	Natural immunity	2

5. **Immunizations Entry:** Entering Immunizations has been made simpler in several ways. The code table was changed so that Immunizations could be marked as required and the number needed can be associated with each Immunization.
  - a) In the Immunizations code tab a checkbox has been added for required. When the Immunization is required, for state reporting for example, it automatically populates the student's record with the name of the Immunization for easy data entry.
  - b) Entering the number of required doses in the Immunization code table creates the date fields for each dose. With a short glance users can tell how many doses are needed and how many have been completed for each student.
  - c) Use the required indicator in the Immunizations code table for Immunizations that will be used in state reporting.

- d) Click the Edit button to open up the individual student's immunization page. For each required immunization a date box will be present according to the required number of doses entered in the Immunizations Code Table. If a student has more than the required doses, additional doses can be entered in the comments section. Exemptions can also be entered on this screen.

6. **HPV Screen:** Several additional fields have been added to the HPV screen. These include
  - a. Vision, Vision Near, and Vision Far
    - i. Both Eyes
    - ii. Left Eye
    - iii. Right Eye
  - b. Color Blind
  - c. **Hearing Frequencies:** different hearing frequencies can be added for each ear for levels ranging from 250 to 8K and a tympanic code reading.
    - i. A status can be associated with each of the frequency testing results that comes from values in the Assessment code table.

- Procedures:** The ability to create Procedures and schedule those procedures has been added. A Procedures code table has been created, and a new tab on the Add/Modify student's health allows Districts to schedule procedures similar to scheduling medications. Those scheduled procedures show up on the Nurses' Log and can be marked as completed.
