Gradebook Averages Query

This query can be used to get a report of student Gradebook Averages by Term.

A Term Average value is available to get students in the range you are interested in. The default value is <= 65. Changing this to <= 100 will give you all students.

The Query report will include Student ID, Last Name, First Name, Course ID, Course Section, Teacher, Average.

ID	Last Name	First Name	Course ID	Course Section	Teacher	Average
