Patch Release Notes - 7.0.20180604_sync

A patch release went out on June 5, 2018.

The patch release included the following updates:

- When the District Configuration is set to Show Current & Prior Schedules only the My Courses > Gradebook view will no longer allow the teacher to view or select Course IDs for future scheduled courses when the Year is set to a Future Year .

- When the District Configuration is set to Show Current & Prior Schedules the Seating Chart will no longer display students when the Year is set to a Future Year.

- SIF EPIMS Update: Changes have been made to the SIF Staff Assignment XML to send WA08 (Teacher/Paraprofessional Assignment), WA09 (Grade) and WA10 (Subject Area Course Code) user selected values in the Non-Course Work Assignments created for SIF Job Type = 2310 Teacher Support Content NO COURSES.

Action Required: To update data at the DOE â€" DELETE SIF Temp Table to clear the StaffAssignment Object and SEND updated EPIMS data. Use either SIF Reporting > EPIMS to send all EPIMS objects by School and/or by MEPID or use Send SIF Objects to send StaffAssignment Objects for the entire district. Refer to iPass Help > SIF > Help > [Quick Guide: SIF EPIMS 2310 Support Content Teacher â€" No Scheduled Courses](#) for more information.

- Publishing Dashboard: Published PCL Progress Reports were opening up blank in some iParent accounts. This has been fixed.
