Course Lists with Guardian Email Addresses Query

The Course Lists with Guardian Email Addresses Query will give you the Email Addresses for Guardians of students in a specified Course.

When Executing the query, you can select the School Year, Course Title (School ID# only,no section), School, and the Guardian settings for Lives with Student and Receives Mail (default value is Yes for both).

The resulting report will include all sections for the Course ID with a count of students for each section. The student will be listed multiple times if they have more than one Guardian with an email address on record in iPass.
