Patch Release Notes - 7.0.20190401_sync

A patch release went out on April 4, 2019 with the following minor improvements and corrections.

** *Refer to the attached document for full release notes.* **

Minor Improvements:

- Grade Import, used mostly with the 3rd Party product GradeQuick, can now import files from an external sFTP site.

- The ConnectEd Parameters now allows districts the ability to choose a Misc Field to use as Home Language.

- The Maintain Parking Spaces screen has been added to the Vehicle System to allow each school to maintain a list of all available parking spaces with a Parking Space number, Description and Handicap designation (Yes/No).

Corrections have been made to the following. (*Refer to Release Notes for specifics.)*

- Copying Alpha or Special Grades (ie. EX) from Gradebook to Add/Modify Course Grades.

- iParent Registration screen.

- Display of published documents.

- Clever Export for multi-district sites

- CRDC 504 enrollment counts

- CRDC AP Other enrollment counts
