How do I stop and start the SIF Agents in iPass? How do I stop and start the SIF Agents in iPass? How do I stop and start the SIF Agents in iPass?

Check if SIF Agents are Running

Go to your iPASS <SIF Agent> folder and click on the <SIF Processor> menu option. You will see a screeen that shows you if your Response and Event processes are running (in green).

Steps to Clear and Restart Agent

To Stop and Clear

- 1. Click on the "Shutdownâ€∏ flag for both **Response** and **Events**
- 2. Click on the "Purge all log files except current dayâ€□
- 3. Click <Submit> this will complete above steps and you will see your Event and Response Process go into a "Quit state and all of your log files (except current day) will be gone.
- 4. You will then need to click on the "Deleteâ€☐ flag for your Response and Event process and click <Submit>
- 5. Click the "Xâ€□ to the left of your Response and Event log files to delete the current days log files

To Start

- 1. Select "Yesâ€☐ in the drop-down for Event and Response. Click <Submit>
- 2. Click <Submit> a second time and you should see a green "**Running**â€∏ in the status column
