# Quick Guide: PIMS - Location Fact

This Quick Guide describes how to enter and configure data to be reported on the Location Fact extract.

The Guide has been updated to reflect the revised configuration requirements for the 2015-2016 school year and forward. The guide assumes prior knowledge of basic iPASS navigation and configuration.

*Tip* â€" Refer to [release notes for Version 7.020160525_pa](http://www.imgsoftware.com/kb/entry/776/) for detail on changes to the

extract logic.
