

Quick Guide: iTeacher - Submitting Competency Grades from Gradebook

Overview:

The attached guide describes the steps for converting gradebook averages into competency grades for the purposes of producing a competency or skill-based report card for elementary grade levels.

Please note the following:

- Competencies and tasks must be assigned to individual assignments in the gradebook BEFORE submitting grades. ([Click here for more information](#))
- The assignment type weighting and the “ædrop score” features on the *Course Weights* screen are NOT used when the system calculates competency and task averages.

**** See attached document below for compete guide and steps.**
