	Felony Compliant (charge) Outside School. NOTE: It is the responsibility of	
	the iPass district to add Offense Code 19 as an Incident Code under

	need to be mapped. For more information on how to do the SIF Mapping go

IP-3313	Auto Attendance Letters - The Auto Attendance Letters report "Select	1587620
	School†included students for just that school when generating the letters

	addresses. This has been resolved and the letters now use the student's	1553743
	associated Student Address and "Parent Name" when creating the letter.	1000710

IP-3322	Course Rollover with Schedules = No will rollover Courses with the Couse	1594302
	Details was not rolling over Sections and Max Seats on some sites. This has	
	been resolved. NOTE Best Practice: It is recommended that you always do	
	the initial Course Rollover with Schedules = Yes even if you plan to build	
	your own schedule or completely change the schedule. Once you roll it over	
	with the schedule you can use the MSB Options to save a version "with" the	
	schedule and then you can Clear the Schedule and save a version "without	
	the schedule". That way you ways have a version you can revert to in the	
	event you want to us some or all of your previous year schedule. If you do the	
	Course Rollover with Schedules = No and decide that you actually want the	
1	schedule you can do the Course Rollover again with Roll Schedule = Yes and	
1	Override if Exists = No. This combination will rollover what is missing and	
1	not update what has already been rolled over. It is important to follow these	
	steps if your district has already started the Online Course Recommendation	
	process. If in doubt of what to do, contact iPass Support for assistance.
