Patch Release Notes - 7.0.20170517_sync

A patch release went out on May 17, 2017.

This included corrections for the following:

Scheduling:

- The Conflict Message is now showing the correct course and section that is in conflict with the course section you are trying to schedule.

- The Drop/Restore feature is now properly restoring all course sections selected.

SIF SSDR:

- There is now a fix for the SIF SSDR validation error SSDR6115 â€œIf Optional Description Code is selected for Offense 1, a description is required."

  INSTRUCTIONS: User should resend the SIF SSDR Discipline Incident Object again to the DOE.

Release Notes attached below.
